

K-LOVE is the radio station I prefer to listen to. It is positive and encouraging to me through out the day when I am driving. It calms my son if he is scared. There are so many stations that advertise about going to bars, and then they have times when they are discussing just about everything that I don't care for my children to hear. K-LOVE is a station that is good for the local community because it is positive, encouraging and safe. Please do not allow the LPFM stations to take priority over current FM translator service. My family, friends, and I would appreciate K-Love being able to stay on the air. Thank You!
